

# ROOFING SLATE

**MICAPEL (Mineração Capão das Pedras Ltda.)** is one of the major Brazilian companies in the area of natural stones. It focuses mainly on **slate**. From its currently known slate reserves, thousands of metric tons are quarried, fabricated and exported monthly, worldwide, in darker and lighter shades of black, grey, green, red, and multicolor. Standard sizes are available in gauged, natural cleft, and large slabs. Special sizes and formats are produced as specified by the client. There are products for landscaping, floors, wall-cladding, **roofing**, kitchen, table, and counter tops, stair steps, risers and landings, mosaic patterns, billiard table tops, and many more. Selected **quartzite** and **soapstone** products are also offered.

At present, MICAPEL has five quarries producing roofing slate

## Quarries

Capão do Mato quarry - Grey Slate "A" classification (LNE, France)

Asa Branca quarry - the largest purple slate reserve in Brazil

Felixlândia II - quarry

Felixlândia I - quarry

Pompeu Velho - quarry

## Kinds of slate

MICAPEL produces now five kinds of slate used for roofing in different shades of color.

**AR02**

*dark red wine*

**AR05**

*multicolor*

**AR09**

*bluish gray*

**AR04**

*light green*

**AR07**

*black graphite-like*

**AR10**

*dark green*

**AR08**

*like rose wine*

## Fabrication

MICAPEL has a fabrication unit operating solely for the production of roofing tiles

Roofing Slate Unit - the world's second largest automated roofing slate plant

Roofing Slate Unit - the world's second largest automated roofing slate plant

## Formats || Finishes

MICAPEL produces roofing slate in standard formats as well as special sizes, cuts, finishes and formats (as specified by the Client)

- ▶ Dressed edge
